TV wall mounts

TV wall mounts especially for LG OLED TVs

Enjoy more with Vogel's

Fits perfectly to the back of
your LG OLED TV

TV's can be fitted to mounts by means of a kind of 'hole pattern' (known as a VESA pattern) on the back of the TV. The back of most LG OLED TVs are different to those of regular TVs. Our adapter is designed to be a seamless fit for this special pattern. This makes your OLED television even more of an eye catcher in your home.

Flexible wall mounts

The [THIN 546](#) is one of the thinnest full-motion wall mount from Vogel's. This TV wall mount ensures that you have the perfect view of your OLED TV from anywhere in the room. Simply turn the TV towards you, to any desired position.

Are you looking for top notch in every detail? The Vogel's [NEXT](#) series is the very best in wall mount technology, design and functionality. Vogel's [NEXT 7346](#) is designed to endure. It has a clean iconic look with graceful lines that creates a unique setting for your TV. When we created this mount, we put a great part of the Vogel's legacy in it.

Motorised wall mounts

Discover the specific qualities of the motorized full motion OLED TV wall mounts.

The [MotionMount \(NEXT 7356\)](#) wall mount automatically turns towards you, up to 120 degrees, wherever you sit in the room. This motorised wall mount can be operated through the TV remote control or app. As soon as you switch on your TV, the MotionMount moves to your preset viewing position in one smooth movement. When you turn off the TV, the OLED TV and the MotionMount gracefully move back against the wall. A lot of thought has also gone into concealing the cables, particularly at the back of the TV, so that your OLED television will be even more of an eye-catcher in your home.

Exclusive for LG Signature Vogel's developed the full motion motorised TV wall mount [NEXT 7555](#).

This wall mount is especially designed for the LG Signature TV with a striking design aimed to bring you the best viewing and listening experience. This motorised TV can be operated via app or your remote control. You can easily turn your tv in the ideal viewing position and extend it up to 72cm. And the patented Screen Protection System avoids your LG Wallpaper to bump into the wall. (SPS®)

If you are looking for a flat to the wall solution? The [NEXT 7505](#) is the best option for you!
